Fittz's skill in Mechanical Dentistry can be seen at their office, specimens of which took the 4rst Prenium and Diploma at the United States Fair in 1875. Dr. Wilson has been treating aching teeth successfully for the last five yers by destroying the rerve without palu, filing the fangs and crown with gold, reet ring the tooth to its natural shape, and making it as useful as before decay. Do not have your teeth extracted until you are certain they cannot be saved.

Mor than Efty per cent, of the teeth usually extracted can be made useful through life. We are daily treating and lithing teeth of this class that comes in to be extracted. In no case do we disfigure a tooth by filing to ill it, using other and better means than the indiscriminate use of the nic. Any looth can be filled with roid that Is worth filling at all. We use, when requested, a local anesthesia to prevent pain in extracting teeth.

All operations warranted as represented, and terms as liberal as any good Dentist can afford.

THE KENTUCKY MECHANICS' INSTITUTE. SIXTH ANNUAL EXHIBITION.

OCTOBER 11, 1858. We have only a few words to add before closing ur notices of this delightful exhibition. Prond of it as an exponent of the industrial resources of our city, we have attempted to direct popular at-Gov. Helm seems to have stirred up a devoted ention to this enterprize, and have warmly commended all of those who have the sagacity to riend in Mr. Topp, President of the Memphis and avail themselves of the fair as an opportunity of Ohio railroad. Mr. Topp bids fair to make as proadvertising. We wish that we could speak in lific a writer upon railroads as Gov. Ilelm. He favored us last Thursday with a long letter on the terms of praise of all our artizaus. Some have been lukewarm, others have opposed the Instisubject, and two days thereafter with another in tute. Neither indifference or hostility to so werthy the Governor's organ. If he goes on at that rate a cause is justifiable. City pride, if nothing elseshould awaken in all hearts an enthusiasm in behalf of this exhibit of our mechanic arts. We fondly hope that next year it shall be our duty to hronicle a united, hearty and energetic support f the Institute.

FREE EXHIBITION. The officers have very properly and kindly inontrary a great deal of harm. There are some ited the attendance of the pupils of the public hings which won't bear discussion in the news. chools and orphan asylums. It will afford them pleasure to see all these children to day and tonorrow. Teachers can readily spare an hour or two during the day, and it will be best for them to eccompany the children.

A FINE CARRIAGE. We had almost forgotten the magnificent coach nanufactured and exhibited by I. F. Stone, of Main street, in this city. It is a splendid vehicle, entaining beauty and durability, and is fit for a ing to ride in. Mr. Stone's establishment, above the Galt House, is well known to our citizens .-His work is better known, for it never affords ocasion for complaint. FRENCH BURR MILL STONE.

Messrs. Herbert & Wright have been for many ears engaged in the manufacture of the French Burr Mill Stone. Many of the materials are imorted from abroad, and their skill as workmen is such as to bring their articles into general reuest. They also make portable corn mills, which re convenient and economical.

F. Volkmar of this city, on behalf of the manucturers, exhibits some beautiful specimens of narquetry. The designs are tasteful, and the work is substantial. We understand that this branch of manufacture is about being introduced nto Louisville. It can be rendered popular and rofitable here.

OAKLAND RACES .- The regular meeting of trotng races at Oakland, was concluded on Saturlay by a fine race. The entries were S. A. Douglas, a trotter, and Lightning, Calliope and great public enterprise, upon a fair and honest John Morrissey, pacers. Lightning got the lead tatement of the case, but to be always dragged in both heats, but was passed by Douglas, on the back stretch in each heat, Douglas winning the race with apparent ease-Calliope second. was a close contest between Lightning and John Morrissey, the latter being third in the first heat, and Lightuing third in the second heat. Here is the

Capt. Travis did not meet with the success he crved in these races. He paid his purses in gold, and promptly discharged all obligations therwise. Travis certainly merited success, alhough he failed to win it.

6. Would it not be better to finish the main l'otatoes.-We learn that a dealer in this city, em of the L. & N. R. R., and complete our water Saturday, received a telegraphic dispatch from vorks, and straighten up our entangled financial New Orleans which stated that common potatoes ecounts with existing cuterprises, (all of which were selling in that market at prices ranging ught to be done in less than two years, and coufrom \$1 75 to \$2 25 per barrel. The prevailing price here for good potatoes is \$1 75 per barrel, to which must be added \$1 or more for freights, enterprise which may cripple those already on which would make a barrel cost much more than it would sell for in New Orleans at the above

with clouds that looked as if they might contain "JACK SHEPPERD."-This young man writes us hat he has not left the city. Since his discharge from the work-house he has been engaged in one of our ship yards, and is honestly employed in making his living. He says he has given up his bud practices, and intends hereafter living an upright life. We heartily wish him success in the

execution of his commendable resolution. We are requested to call attention to a ectal sale of fashionable new style pocket cutery, this Monday morning, at 10 o'clock, at the ction rooms of Messrs. S. G. Henry & Co. It is an entire fresh stock just received from the manfacturer in New York, and will be sold in liberal ots. It can be examined before the sale.

Mr. E. II. Vernon having given up the ency of the Peoria Insurance office in this city, t has been transferred to J. B. McIlvaiu, the senior partner in the firm of J. B. McIlvain & Son We take pleasure in referring to the advertisement of the agent, and commend the office as one that can be relied on in case of loss.

The heavens on Saturday night presented a wonderfully rare and beautiful spectacle. In the western sky were to be seen at the same time, the fair, new crescent moon, the brilliant evening tar Venns, and the glowing comet-the latter in ts highest state of perfection.

RESPECT TO THE DEAD .- Yesterday Bishop Smith preached an eloquent and touching discourse comnemorative of the death of Henry M. Meeting of the Democracy of Marshall. At a meeting of the Democracy of Marshall unty, at the court house in Benton, on Monday. ne 4th day of October, 1858, (being county court lay,) on motion of J. C. Gilbert, T. l. Gaheen was called to the chair, and B. Holland appointed ecretary. The object of the meeting being exlained by T. L. Gaheen, on motion, the following named persons were appointed a committee to draft resolutions, expressing the sentiments of

W. J. Dycuss, Thomas McGrath, Samuel Dunan, Nelson Owens, and W. Waller. Said committee, after having retired, reported the following resolutions, which were unanimously adopted by the meeting:

Resolved. That our faith in the administration

The Comet.

This remarkable object now presents a most striking appearance among the celestial host. In misty grandeur it even holds high rank among that class of heavenly bodies to which it belongs. It was discovered by professor Donate, of Florence, Italy, nearly four months since, and for a large part of the time since it was detected, has been steadily approaching the earth, and in a direction so nearly coincident with the visual ray, that but for the reliable computations of some fearful collision with our own planet. Indeed, throughout the present month it seems to have been plunging downward so exactly towards the earth that it scarcely changed its apparent place among the fixed stars by a quantity larger than two or three imes they apparent diameter of the moon.

It will reach its nearest approach to the sun in a few days. Its brillaincy will increase rapidly up to the close of the first week in October, when wit will put on its most splendid sppearance, and will then rival in grandeur the famous comet of Halley, at its last return in 1836.

It is hy far the most impressing chaet of the kind.

Halley, at its last return in 1936.

It is by far the most imposing object of the kind which has visited our section since the erection of the Cincinnati Observatory. Owing to the fact that the direction of its motion is, or has been, so nearly in a line toward the earth, the elements of its orbit have not been very accurately determined. The plane in which it moves is inclined to that of The plane in which it moves is inclined to that of our earth's orbit, under an angle of about sixtyfive degrees.

Its observed positions are for the present better

represented by an orbit in the form of a parabola than by any one of an elliptic figure. The comet will soon commence to change its direction, at first will soon commence to change its direction, at first slowly, afterward more rapidly, as seen from the earth, when sweeping swiftly round the sun it will regain those distant regions of space, wherein a vast proportion of its orbit lies far beyond the reach of telescopic vision.

On the evening of the 25th of September the appearance of the comet in the great refractor of the Cincinnati Observatory, was especially interesting. The central portion or nuclens, was examined with powers varying from one hundred to five hundred, without presenting any evidence of well-

presented the appearance of a hollow nebulous envelop, under the form of a parabaloid of revolution, the edge being brightest and well-defined, while there was a manifest fading away of light toward the central region. Helm, we must bring him within the range of the discussion, as we begun We can't think of going off upon a railroad o miles from home, in the State of Tennessee, arther than an occasional allusion or illus ration, takes us to it. The questions at issue between us and Gov. Helm concern the city of Louisville. They are local, and must be discussed in that light. We, therefore, suggest to Mr. Topp that he shall bring his logic and rhetoric to ear upon the following six questions, and when he gets through with these, we promise to put others to him equally as difficult to answer, if not

more so for a gentleman whose life has been spent so far from Louisville. 1. Is Louisville, with the main stem of the L. & R. R. and the water works unfinished, in a conlition to embark in new enterprises years in adance of the need of the help asked, until she knows ow much she will have to give in the public imrovements already undertakeu?

2. Must Louisville, at the dictation of Gov Helm, give \$300,000 to build a branch road over a oute pronounced by his own engineer to be less sirable than another, and believed by many of er citizens, who bave investigated the subject, be the very worst of all the routes ever sugested for a railroad to Memphis? 3. Are we never, in Kentneky, to undertake a

nto such undertakings by deceptive and humugging expositions, whose aim is to get us in, and leave us to get out as best we may? 4. Ought we not to have a report from the Audior, showing the condition of the city finances, before we create another debt of \$300,000 and imose another heavy burden upon our already tax-

ppressed citizens? Should the city open another tax-account with a railroad more than one hundred miles from nome, when a similar account with the L. & N. R. R., right at home, cannot be understood, or which, if understood at all, shows that the people have said thousands upon thousands of dollars in taxes, the receipt of which has not been acknowldged by this road?

The play of Sybil is one of uo ordinary merit With the exception of the introductory act, which seems to us to be tedious and not suitably preparatory for the thrilling drama which folows, it is a tragedy which ranks with the imnortal works of the best writers for the stage. There is nothing in the plays of Shakspeare more beautiful and affecting than the scenc in which Sybil asks an oath for the destruction of her se-

ducer, and her lover kneels by her side and looks o heaven and takes the terrible oath. It is not our purpose, however, to present the lot or argument of this play. It must be seen pon the stage to be fully appreciated. We must e permitted to say, however, that if it was the esign of the writer to present upon the stage the rue characters of the principal actors in the Beauchamp tragedy," in this State, the play is a bel upon those characters. Neither history nor radition justify any such presentation of the tramatis personce in the Kentucky tragedy. There are thousands of living witnesses in whose memories the facts of the "Beauchamp tragedy" are too iudellibly written to admit of such a dramatic interpretation. To say that this play is resentation of the "Beauchamp tragedy," is to destroy its real merits, and to degrade it into an inamous libel upon the dead, and a burning shame

pon the living. Let it, rather, be called "Sybil," with no attempt to invest it with the terrors of a ocal incident which it does not portray according o history or tradition. Miss Avonia Jones, as Sybil, in this play, is au ad. nirable character. Her rare beauty and splendid alents are finely displayed. She is the personification of beauty and genius struggling with misortune and revenge. As a fiction the character is worthy of her genius, her beauty, and her won-

acts are known.

The same may be said of Keeble, as Clifden and Riley, as Thorpe. Their performance is admirable in these characters, considered as fictiious, but when the audience is asked to regard them as realities, the facts in the case at once divest the play of its deserved dramatic effect. The play will be performed again to-night, and o doubt the audience will be as large as it was Saturday night. It is one of the finest dramas we have yet had upon our stage, (provided it be allowed to be fictitious so far as Kentucky charac ters are concerned,) and those who hear it once will be pleased well enough to go again. In the many fine characters which display the personal beauty, the mental powers, and the dramatic capacity of Miss Jones, there is not one in which she appears to better advantage than as Sybil.-If, however, Miss Jones, in the character of 'Sybil," is to be regarded as Miss Cook, Keeble, n the character of "Clifden," as Beauchamp, and Riley, in the character of "Thorpe," as Col. Sharpe, then the sooner the play is dispensed with, and the fewer that hear it, the better. We speak thus after having heard the play ourselves, which will

say, what it was. JEFFERSON STREET CHURCH.-This church, left vithout a pastor, by the late removal of Rev. J. C. Schofield, to Quincy, Illinois, have called Rev. A. C. with powers varying from one hundred to five hundred, without presenting any evidence of well-defined planetary disc. It was a brilliant glow of light darting and flashing forward in the direction of the motion toward the sun, and leaving the region behind in comparative obscurity. But the most wonderful physical feature presented was a portion of a nearly circular, nebulous ring, with its vortex directed toward the sun, the bright nucleus being in the center, while the imperfect ring swept more than half way round the luminous center. The nebulous ring resembled those which sometimes escape from a steam pipe, and did not exhibit the appearance which ought to be presented by a hollow hemispherical evelop of nebulous matter. There was an evident concentration of light in the central portions of the ring while, in the ter. There was an evident concentration of light in the central portions of the ring while, in the case of a hollow envelop, the brighter portion should be at the outer edge. By micrometical measurement the distance from the central part to the circumference of thering was found to be about \$4,000 miles. This would give a dismeter of eighteen thousand miles, in case the ring was entire. Similar measurements, made on the evening of the 26th of September, in licated a decided increase in the radius of the ring which was now not less than 26th of September, in licated a decided increase in the radius of the ring which was now not less than twelve thousand miles in length. On the same evening I noticed the fact that the luminous envelop did not blend itself into the head portion of the tail, but appeared somewhat to penetrate into this nebulinis mass, especially on the npper part, presenting the appearance of about 200 degrees of a spiral. The tail on the 25th was decidely brighter and better defined on the inpper than on the lower portion, while on the evening of the 26th there was a much increase approach to equality in there was a much nearer approach to equality in brightness c pecial more the head of the comet. Through the telese pe, and near the head, the tail

ful appendings the faintest telescopic stars shone with an hintaished brightness.

No one cau gaze on this gigantic object, in all its misty splandor, without a deep impression that the eye is resting on a mass of nebulous matter, precisely such as the nebular theory of La Place supposes to have been the primordial condition of our sun and all its attendant planets, and from which chaptic condition this beautiful system of revolving worlds has been evoked by the action of a single law.

The only comet which has presented the appearance resembling the one now visible is the one known as Halley's Comet, seen by Sir William Herschel, and others in its return in 1836.

Hon. William Preston-The Spanish Mission Col. Preston has accepted the Spanish Mission. This is what we supposed he would do when the position was tendered him by the President. fle is the man for the place and the place is just

The appointment is highly complimentary to Col. Prestou and to Kentucky. Our State had her full share of executive appointments and this one had to be made as a national affair. It was made for the nation at large, and not for Ken. tucky more than any other State.

This mission has heretofore been ranked as the third of the foreign courts. At this time, however, when Cuba is in view, it is the first. It is of far more importance than the place of Minister to either England or France. It may not be possible for us to get Cuba upon honorable terms, for there are hundreds of chances to one against it. Yet this one chance is worth the exercise of the highest dip'omatic talents in the laud, and if any one can secure the annexation of this rich island to our country, Col. Preston is the man. The nc gotiation for this island cannot be a thing of a day, but if the foundation is laid for future succes, n matter who closes the bargain it will be the work of Preston. Our relations with Spain have been tor a long time unsettled, and they are so now. I 1'al. Preston can adjust the entangled claims our people have a rainst that nower, even without securing Cuba, h s fame will be made. In any event he will make one of the most popular, and accomplished, and satisfactory Ministers that ever went from this country to a foreign court.

Col. Presion will leave home under peculiar circumstances. His name has been mentioned in e anect, n with the coming Gubernatorial race in this State, with unprecedented unanimity. It is the opinion of those who know that he would be nominated by the State convention, (and to nominate is to elect, to be held on the 5th of January w.; hout serious opposition or a shadow of doubt There are other aspirants, however, for this office often to'd us that he did not desire to make the race in opposition to the wishes of other aspirants. and especially those who set up older claims upon the Democracy, after the uniform kindness and consideration he has received from the mass o

ton will accept the appointment now tendered him or not. He has thousands of enthusiastic friends throughout the State, who would be gratned to have lim make the race for Governor of Kentucky. There is not a Democrat in the State who will not be designed to know that the nationdexecutive has recognized so handsomely his ability and his services to the Democratic cause. It remains with him to decide whether he will obey the call of the government now made upou his services in behalf of the whole country, or whether he will allow his friends to present his name to the "th of January Convention as a can didate for the nomination for Governor, with a very fair prospect of success. We suppose his friends will be satisfied with his decision. Should triends will be satisfied with his decision. Should be conclude to accept the appointment, no man will ever have gone abroad under more favorable auspices than he. On the other hand, if nominated for Governor, his success would be certain by an unprecedented majority. It is but seldom that dame Fortune showers her favors so lavishly upon the head of any man; and we know of no one who will wear his honors more meekly, or act in all respects more prudently, than Col. Preston.

From the Lexington (Ky.) Observer and Re-

It is announced, by telegraph, that the Hon-Wm. Preston, of Louisville, has been tendered by the President the mission to Spain. There is very little doubt, we imagine, about his accept-ance, and this will leave the Democratic candi-dacy for Governor open for some of the "faithdacy for Governor open for some of the "faith-fur." Preston evidently had the "inside track" over all competitors for the Gubernatorial nomi-nation, and his appointment to Spain will now

give some of them a chance. From the Baltimore (Md.) Examiner (Adminis-

The appointment of the Hon. William Preston The appointment of the Hon. William Preston of Kentucky, to be Miuister of Madrid seems to have met with very general approbation. We have heretofore spoken of the great injury which has been done to American interests and to the American ame, in the eyes of the Spanish Court and people, by the foolish and unprincipled course of some of our previous representatives. It is, therefore, gratifying to us to be able to amounce that a gentleman has been selected for that important post, to whose merits and qualifications portant post, to whose merits and qualifications an opposition journal (The N. Y. Evening Post) bears the following honorable testimony:

bears the following honorable teatimony:

He is not a money changer or apeculator, and both from inclination and principle will decline to use his efficial position as a means of private emolument. He is also a countly gentleman of the old school, and if he has not the show a shiftless of Soule, he has at least that rare desideratum of an American diptomate—the knowledge how so benavehimself. Nor will be, it may safely be predicted, compromise the nation he represents by the insans chimera of Cuban annexation, or by a foolish sympatay with conspirators against the government to which he is accredited. On the whole, Mr. Preston has excellent qualifications for his new position; uniting with a capacity equal to all the duties likely to be imposed upon him, the bearing of a courteous gentlemen; and his appointment is one of the best which has been made by the present Admin istration.

and neutral.) We are enabled to announce, from sources en We are enabled to announce, from sources enticely anthentic, the appointment of the Hon. Wim. Freston, of Kentucky, as the American Min. Ster at Madrid. Mr. Preston has accepted the appointment, and will make arrangements for an early departure to the seat of his mission. A more judicious selection it would be difficult to make. A gendeman of fine accomplishments, and an able speaker and debater, the retirement of Mr. Preston from public service, two years ago, has been a source of sincere regret to his friends. A foreign legation will give room for a more effective manifestation of his abilities, and

lations better adapted to his tastes and pursuits, From the St. Louis (Mo.) Republican, (Administration.)

A dispatch from Washington, received yester-William Preston, of Kentucky, has been appointed

A better appointment could not have been made. Col. Preston is a fine specimen of an American gentleman—well educated, conrecous and chival-ric, he will make a favorable impression the moment he is received at the court of Madrid. He has another recommendation, which is too frequently wanting in this country, and prevents many men from taking the place of ministers at foreign courts—he is wealthy, and can well afford to sustain the dignity of the country abroad, without reference to the inadequate salary which provided for that purpose.

From the New York Conrier and Enquirer, (op-

It is reported that the President has app . Wm. Preston, of Louisville, Kv., Minister

Personally Mr. Preston is a gentleman of finc appearance, of genial social qualities, affable and agreeable manner, and has been educated in the school which places honor and reputation above the influence of money and of sordid private ad vantage. Beginning with these characteristics of a gentleman, Mr. Preston will command respect the Court of Spain, and will prove himself a Minister adequate to all the real duties of the place. But he will be instructed that the object f his mission is to acquire by nurchase, or by my means, the island of Cuba. In that service any means, the island of Cuba. In that service he will probably accomplish little more than his predecessor, Col. Dodge. It may not be improper to mention that Col. Preston has an ample fortune, and will not be contined to his salary alone for the means of indulging in the hospitalities becoming an American Minister.

From the New York Times (opposition). The Courier and Enquirer cutertains an opin-on of Mr. William Pieston, of Keutucky, made up in equal parts of censure and approbation.— It "achieved no other distinction than that of deserting its own party and joining one which had been the bitter and unscrupulous adversary of its principles, its organization and its principal men," but admits that personally he is "a gentleman of fine appearance, of genial social qualities, atlable and agreeable in manners, and has been educated in the school which places heavy and reputation the school which places honor and reputatio pove the influence of money and of sordid pri

ate advantage."
We are at a loss to decide whether its admira we are at a 1688 to decide whether its admira-tion or censure should be regarded as the more impressive. Coming from such a source both are specially significant. A rebuke from the Conrier and Enquirer for having deserted one's party cer-tainly carries great weight with it, but perhaps not greater than the praise that such change was in no way attributable to "the influence of money" in no way attributable to "the influence of money or of "sordid private advantage." This is much to say; and in these latter days, when parties fall and risc so rapidly, the qualities conceded to Mr. Prestou may go far to atone for any error he has committed in the selection of new political associations. Even on the Courier and Enquirer's own showing, the administration has been cmiown showing, the administration has been emi-mently fortunate in its appointment of Minister to Spain. Mr. Preston is judicious and conservative, as well as able and accomplished. He is not from the extreme South, and it is fair to presume has no sympathy with fillibustering, but that while he will seek the acquisition of Cuba with energy, he will not lose sight of propriety, or wantonly endanger the peace of the country.

From the Philadelphia North American and U Gazette, (opposition.) It is reported from Washington that William reston, of Louisville, Ky., is the selection for the accession at the Court of Spain. Of this ppointment, it is a satisfaction to speak vell. Mr. Preston is a gentleman, and in many respects a statesman, the greatest and chief fault of his life being his subsidence into the Demo ratic party, soon after the nomination of Mr. Buchauan. Indeed, so much as this could have been pardoued, for there were many exterior nubearances of promise at that time; but to adhere a Lecompton administration, such as the present, is heavy evidence against any man, whatever

ood he may have done at any other time. Mr. Preston will do credit to the position hoolds, however, and more credit, by far, than the renger of our representatives abroad. So genial man deserves even a better court than that of Madrid; but former experience shows that a minster to Spain may spend some time in France and Germany. Mr. Preston should prepare to do o, and to go as much about Europe as his busi-ess will permit, taking care only to avoid Ostend. A creditable and well-condition gentleman, at-ached to the Democratic party by any accident, will be much more comfortable abroad than at ome, for the pext two years,

From the Philadelphia Enquirer, (opposition). The Hon. William Preston, of Kentucky, has excepted the appointment of Minister to the Court f Madrid, as tendered him by the President. his is a highly important mission under existing rounistances. Dur relations with Spain have ng been of a delicate character, and it is quite chable that the new Envoy will be charged with he task of securing, if possible, the purchase of

Da. R. D. Porter, Louisville, Ky.—Dear Ser. Owing to the sickly season and my extensive practice, I have not had time to pay much attention to the sale of your Liniment. I have, however, just sold ten bottles, and inclose you amount for same. In addition to which, I would state that I have need it in many cases of chapter as the sale of the sale was a season of chapter. that I have used it in many cases of chronic sores and for various rheumatisms, and flud it a very valuable remedy. A short time ago I cured com-pletely n fine saddle horse that had the sweeny, by a few applications of your Liniment.

Another Case of Dyspersia.—Baldwinsville, N. Y., March 4, 1855.—Dr. C. M. Jackson—Dear Sir: Having received great benefit from the use of Hoofland's German Bitters, I think it my duty as a triend of mankind to let them know it. I had for years been alllicted with Dyspensia, arising from affection of the liver and derangement of the atomach. stomach. I was under the eare of the physicians of this vicinity, but obtained no relief. I was induced, through the advice of a friend, to commence the nac of your filters, and took faithfully, according to directions, three bottles, which catirely cured me, and I now find myself in as good

calth as I have ever enjoyed.

Respectfully, yours, JOHN C. QUEENES. Respectfully, yours, JOHN C. QUEENES. Ask for Hoofland's German Bitters. Take nothing else, and see that the signature of C. M. NEW ORLEANS, Oct. 9 .- Deaths by yellow fever

II. D. NEWCOMB & BRO.

Sir.—Your dispatch has been received. I cordially congranulate you upon the result. It is a glorlous triumph for civilization and the Union. Settlements will soon follow the course of the road, and the East and the West will be bound together by a chain of living Americans which can never be broken.

(Signed)

JAS. BUCHANAN. MAKE THE BEST PIANOS BY 25 PER CENT, IN THE UNITED STATES! A Warning to Strangers.

NEW ORLEANS, Oct. 9.—The Howard Associa-tion, of New Orleans, deem it their duty to inform the country that the prolonged existence of yellow TRIPP & CRAGG fever, and the present great mortality, are solely owing to the influx of strangers, who rapidly fall victims. Timely notice will be issued by this association, of the decadence and disappearance of the epidemic.

E. F. SCHMIDT, Pres't. NO. 109 FOURTH STREET, LOUISVILLE, KENTUCKY, Sole Agents for Kentucky and Indiana. D. Q RICARDO, Sec'y.

NUNNS & CLARK'S Improved New Scale Pianos are so well and favorably known in this market, and throughout the whole country, to he SUPERIOR in touch, tone, and durability, and they apeak so well for themselves, that they need no word of commendation from any one. CINCINNATI, Oct. 9.—There was a collision on the Ohio and Mississippi railroad last night be-tween two freight trains, near Mitchell, Indiana. A conductor, engineer, fireman, and brakesman. A conductor, engineer, fireman, and brakesman, were killed. HAINES BROTHERS' PIANOS

BROTHERS

HAINES BROTHERS' PIANOS

are new Pianos in this market, but they are well known in many sections of the country as an A No. 1 instrument. Competent judges who have tried them pronounce them fully equal, if not superior, to the Steinway & Son's l'ianos. They are a beantiful, highly finished instrument, and we can sell them at three-fourths the price of a Chickering Piano, as we do not have to pay anything for their name or reputation. We still keep a full supply of the New and Improved Scale of Chickering & Son's Grand, Paulor Grand, and Square Planos, and as we are Cash Dealers in them, we can sell them unsually low for cash. We have also several other nakes of Planos, all of which we warrant oglve perfect satisfaction. We respectfully invite strangers visiting the city during the Fair, and all others in want of Pianos, to call and examine our complete stock, for we are selling exceedingly low for cash. TRIPP & CRAGG, No. 109 Fourth st., between Market and Jefferson, \$21 d8m st. Easton, Oct. 9.—Capt. Meigs is in town and has contracted with the Warren foundry and machine company of Phillipsburg, N. J., for a large portion of the pipe for the Washington aqueduct.

his preparation, does so with a feeling of the utmost condence in its virtues and adaptation, on the diseases for
which it is recommended.

It is no new and untried article, but one that has stood
the test of a ten years' trial before the American people,
and its reputation and sale is unrivalled by any similar
preparation extant. The testimony in its favor given by
the most prominent and well-known Physicians and individuals in all parts of the country is immense, and a
careful perusal of the Aimanac, published annually by
the proprietor, and to be had gratts of any of his Agents,
cannot but satisfy the most skeptical that this remedy is
really deserving the great celebrity it has obtained.

AUDITOR'S OFFICE.

FRANKFORT, KY., 25th Sept., 1855.

This is to certify that James E. Tyler & Co., as Agents of the Unity Fire Insurance Company, of London, (U. S. Branch at New York) in Jefferson county, have filed in this office the statements and exhibits required by the provisions of an act, entitled, "An act to regulate Agencies of Foreign Insurance Companies," approved March 3, 1856; and it having been shown to the satisfaction of the undersigned that said Company is possessed of an actual capital of at least one hundred and fifty thousand dollars, as required by said act, the said James E. Tyler & Co., as Agent as a foresaid, is hereby licensed and permitted to take risks and transact business of insurance at his office in Louisville, for the term of one year from the date hereof. But this license may be revoked if it shail be made to appear to the undersigned that since the filing of the statements above referred to, the available capital of said Company has been reduced below one hundred and fifty thousand dollars.

In testimony whereof, I have set my hand, the day and year above written.

In all Nervous, Rheumatic, and Neuralgic Affections, It has in numerous instances proved highly beneficial, and in others effected a decided cure.

a decided cure.

This is a purely vegetable compo This is a purely vegetable compound, prepared on scrictly scientific principles after the manner of the celebrated Holland Professor, Borchave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties. CAUTION!

The great popularity of this delightful Aroma has induced many initations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Bærhave's Holland Bitters a fair trial. One bottle will convince how infinitely superior it is to all these imitations.

STEAMBOATS LEAVING THIS DAY

HASTINGS, —, Cincinnati.
BOWLING GREEN, White, Owensboro.
POLAND, Gracep, Memphls.
JAS. MONTGOMERY, Montgomery, N. O. THE RIVER continues unchanged at this point with 33 or 34 inches water in the canal, which is rather more than the channel depth at the Gras-Flats, above here, or on the bars along the Ohio below the falls. The weather has been clear and quite cool for three days, with two or three heavy white frosts, which, according to the saving of the catherwise, will bring rain. It clouded up in the evening with a little rain, and every indication of more last night, verifying the saying that the white

The river is exceedingly low, with, according to the old marks, just three inches water on the falls in the pass. This makes about 12 or 13 inches water in the pass for boats not over 18 feet in width, the late improvements on the falls having increased the depth of the pass 9 or 10 inches. The project-ing points of rock, the ledges and rocks in the bottom of the pass, had been removed by blasting, which made the improvement. The bottom of the pass is only 18 feet wide, while the surface is falls fits feet wide. fully fifty feet wide.

Our dispatches Saturday night dissipate all present hopes of a rise from Putsburgh, or the kanawha, as the river is quite low and falling.—The following in reference to the condition of the apper river, and the movement of boats, we find in the Cinginnati Gazette of Saturday:

At Pittsburg: there is only twenty-seven inches water, as we learn fr m a reliable source, notwitstanding the eleeraph has been sending messages that t ere were directed water by the mark. At Glass House there is three feet water by the mark. At Glass House there is only twe ity inches, and only seventeen Inches at Logstown. The Bemont left Tuesday, and prounded at Glass Hous, and after discharging all her freight consisting or glass ware, cotton, &c., she still remained stuck, and cannot be got off until there shall be another swell. The Belm intleaded at 20c per 100 lbs to Cincinnati, and det a heusiville. The Henry Graff, Cambridge and other steamers had commenced receiving, but were compelled to sbandon their trips. The new tow hoat John Watson, is lying across the channel at Beaver Shals, almost hi h and dry. The Alps had got out of Gass House, and was laid up st the foot of the bir. The new ferry bo t, also sground there, had got off and was to Chitsburgh. Frel ht, particularly Pittsburgh manufactures, is plenty at Pittsburgh. Our informant while riders in the care from Pittsburgh to like city, observed that at the side streams were dry and that the late rains had scarcely any effect upon them. The Indian, from Portsmouth came in with a light trip; dischanged her freight, and run up her sign for New Orcharged her freight, and run up her sign for New leans. She passed the Jennie Gray at Breast Creek. ACCIDENT TO THE KATE FRISBER - Sunday last

ACCIDENT TO THE KATE FRESBER.—Sunday last at the head of Island 63, the Kate Frishee ran against a snag, which damaged the hurricane deck and chimneys. The snag barely missed the hull and passed through the lower deck, tearing away the plank, and passing up struck one of the chimneys, knocking it off almost even with the chimneys roof. In its fall, the chimney knocked hurricane roof. In its fall the chimney down strack the other, upsetting it also.

Juo. M. Norton, son of Capt. Geo. W. Nor-on, met with an accident near the Belmont Mills, Wheeling, on the 6th, which resulted in the loss of his left leg. He was near the Baltimore and Ohio railrond track, when the yard engine came along knocked him down, passed over the limb, crushing it in a most shocking manner, and rendering its immediate amputation necessary.

Pequisition for a Negro Stealer. - The Govy, the free ne ro who has been confined in on jul on the charge of trying to run off a slave from ins master in New Orleans. Moxley had been temporarily hired as cook on the Diana, Capt. Sturgeon, and when in New Orleans snuggled the slave boy on the boat to act in the capacity of the slave boy on the boat to act in the capacity of assistent cook, representing him as a free boy, and actually producing free papers, which he had found somewhere. The other officers of the boat, after she left New Orleans, ascertained that the boy was a slave, and Capt. Stargeou very prompt y arrested and lodged him in the jail at Natchez. Moxley was relained ou the boat, but under that surveillance, and ou her arrival in port

Papt. Sturgeon had him prrested, and on an ex-napliation the proof was sufficient to hold him over to await the requisition of the Governor of Louisiana. Ex-officer R. M. Moore aided in the arcest, and he takes him to New Orleans to de-learning to the proper authorities to undergo treal for the offense. He is, we believe, a free negro from Cincinnati. Officer Moore starts with the John Gault Saturday, for Cuiro THE JOHN BELL SOLD .- According to the order

The John Bell Sold.—According to the order of parties concerned, the steamer John Bell, the property of Capt. Eli Vausickles, deceased, was ald at auction Saturday. The purchaser was Mr Shields, a boatman, who bid \$5,200 for her. She is a very good boat, and Shields got her at a targain. He is a well known citizen, who resides on ilgh street. He contemplates placing her in the theolitic river in charge of Capt. Sup. Sulli. the Duschitta river, in charge of Capt. Sim Sulli THE CYGNET LAUNCH. - On to-morrow Sam King

ime from Tennessee river, we are indebted for he usual favors. The Tennessee was quite low, with about 2) inches water on the shoalest bars. THE D. A. JANUARY RAISED. We learn that the D. A January, recently snagged and sunk in Camden Bend, Missouri river, has been raised, and went to St. Louis to repair.

ANOTHER ACCIDENT .- We see by the St. Louis ANOTHER ACCIDENT.—We see by the St. Louis papers of Saturday that quite a serious accident bas happened to the Philadelphia. Shewas in the St. Louis and Memphis traile, and we copy the tollowing from one of our exchanges:

The Ph a telphia has been unfortunate this trip. The first night out from Memphis she encountered a snag, which ran ov r her shaft and broke the campoke; and on the sales night, she barst a boiler. She was also detailed by a fog. The Polar Star was chartered yester. day, to make one true for her and was to have see the

Our port list during the past few days has been very light, but lew boats arriving, but little business doing, and very few passengers traveling. The epidemic South deters the people from going to New Orleans, and the first intimation of a frost in that vicinity will cause the instant departure of thousands to that region, and revive business.

Thanks to Mr. Frisbee, the polite and attenuate cierk of the light and fleet packet Bland, for the latest advices from Cairo. She met the John Gault on the bar at Salt river, hard and fast, but er steam capstan was walking her right through

The Poland, one of the best and most punctual of the low water fleet, takes her departure to Cairo and Memphis this evening. She starts at 5 o'clock, from Portland.

John Bridgs.—The staunch and commodious side-wheel packet John Briggs, is offered for sale. See advertisement. She is a very superior boat, sarries a big load, runs well, and would make a steet Red River. On the same well, and would make a reat Red River or Onachitta packet. The Woodside has commenced regular ups between Wheeling and Parkersburgh.

We learn from the Ciuciunati Commercia that the coal tow boat Champion No. 1, Capt. Shinkle, struck a log at "Red House," which caused her to leak sobadly that she was run out on California bar to prevent her sinking. She was soon pumped out, and in running trim again. The Jesse K. Bell is on the Marine ways at Judminati, to be repaired. The remains of Capt. B. L. Elliott arrived

at New Albany, Saturday and his funeral took place at 2 o'clock Sunday afternoon. The Bowling Green Is advertised for wensboro to-day, instead of Wednesday, as here-
